Unlocking Insights to Transform Your Business

Dimensional Insight announces the latest evolution in our product that unifies your analytics and applications data, providing greater simplicity and consistency to your organization. Diver Gateway makes it even easier to gain the right insight to turbocharge sales and democratize data throughout your enterprise.

Here are some frequently asked questions about Diver Gateway.

What is Diver Gateway?

Diver Gateway is a new platform from which you can access all your analytics and data, on any device of your choosing. It brings together previously disparate analytical applications and interfaces and integrates them, providing one point of access. No longer will you need to access clients and installed applications separately. They are all now unified as Diver Gateway.

Why should I upgrade?

Upgrading will provide greater simplicity and consistency across your organization, allowing you to access all analytics from one entry point. Dimensional Insight is also working on several enhancements that we will bring to Diver Gateway, including access to notes, contacts, a calendar, and alerts.

Which applications are accessible on Diver Gateway?

Diver Gateway integrates all of your analytics previously available in Distributor Advisor or Supplier Advisor with your applications data from Program Advisor, Inventory Advisor, Survey Advisor, and Inventory Advisor.

What types of users can use Diver Gateway?

Diver Gateway supports all types of users, from the analyst, to the field sales team, to the executive. Diver Gateway brings together your dashboards, reports, and analytics in one place. No longer will you have to toggle between clients for the different types of analyses you wish to do. This integration also ensures that everyone in the organization is viewing data in the same format, providing consistency across departments and functions.

On which devices can I use Diver Gateway?

Diver Gateway is available on the desktop, laptop, and Apple iOS tablets and phones, with some functionality on Android devices. Development is underway to expand Android functionality.

Is Diver Gateway an executable or a web application?

Diver Gateway is an executable.

Is Diver Gateway available as software as a service (SaaS)?

Yes. Dimensional Insight prefers new clients use Diver Gateway on a subscription basis. Existing clients can be on a license model.

What are my technical requirements to use Diver Gateway?

Client requirements:

- Mobile phones: Works best on an iPhone (iOS version 10 and up), but there is some Android functionality.
- Tablets: Works on both the iPad mini and regular iPad (64 bit).
- Desktops/Laptops: Works on both Windows and Apple devices.

Server requirements:

- Memory: Customers need at least 0.5 GB of space on their device.
- Server: Server space depends on the size of the data volume. Necessary memory and storage space is anywhere from 0.5 GB to 20 GB or more.
